

# Seven Investment Management Wins Best Cautious Wealth Manager 2009

We are delighted to announce the further endorsement of our broad, global and disciplined asset allocation policy with recognition from the Financial Times.

At the prestigious Financial Times and Investors Chronicle Awards, Camilla Ritchie from the 7IM Investment Management Team collected the Award from comedian Sean Lock and Graham Harrison, Managing Director of Asset Risk Consultants Ltd.

## As a reminder

7IM aims to accomplish three tasks when managing client money:

- Low volatility from broad diversification
- Contain costs
- Steady performance

In other words, we manage risk as well as performance. In our experience, clients are most interested in a safe pair of hands managing their capital rather than somebody trying to impress the world with their ability to be top of the performance table. Top of the performance table aspirations most often imply taking more risk with clients' money than we believe is prudent.

The 7IM Investment Management team, led by Ros Price, therefore works closely with the Asset Allocation Committee, a group of 8 industry professionals (below). The Committee is Chaired by Justin Urquhart Stewart and members have been specifically chosen to provide a full range of expertise across asset classes and for their extensive market experience to ensure that our clients' money is working hard and in accordance with their risk preferences.

Pictured from left to right: Tony Norris (Evergreen), Charles Diamond (Econostat Owner/Manager), John Thompson (Ibbotson Associates), John Hatherly (ex M&G Research Director), Henry Boucher (Sarasin LLP, Deputy CIO), John Gibbon (ex-BAE Pension Director), Alex Scott (7IM), Michael Hughes (ex Barings CIO), Ros Price (CIO, 7IM), Chris Charlton (Centa Consult Owner/Manager).
