

FOR IMMEDIATE RELEASE

13 AUGUST 2018

7IM PANS GOLD BUT DIGS GENERAL COMMODITIES FOR FIRST TIME IN FIVE YEARS

Seven Investment Management (7IM) has dropped gold from all but its most cautious multi-asset portfolios. Even within the cautious portfolios it has halved exposure to just 2%.

7IM began trimming gold exposure in mid November 2017, when gold was cut by 1% across portfolios, and then by a further 2% in February 2018.

The latest changes across its portfolios has replaced gold with general commodities. This is 7IM's first move into broader, energy-linked, agricultural and industrial commodities in five years.

7IM last held a material position in general commodity in February 2013. Since then, the broad commodities market has fallen by around 30%, largely due to the poor performance of the energy sector between 2014 and 2016.

Matthew Yeates, Investment Manager, 7IM said: "There are good arguments for returning to broad commodities, which give portfolios exposure to inflation-linked assets. In historical periods such as 1994, characterised by rising inflation and weakness in both bond and equity markets, commodities were among one of the only asset classes that performed well.

"Even if we are not expecting raging inflation any time soon, we should be prepared for inflation shocks and taper tantrum-type events that can hurt both equities and bonds. We like the diversification that commodities offer, so with pricing looking fair and the economic recovery seeming to still have legs, we believe that over the long term, general commodities can earn their keep in portfolios again."

Peter Sleep, Senior Investment Manager, Seven Investment Management (7IM) said: "Gold can act in an unpredictable way often depending upon factors like the strength of Sterling, the US Dollar, Chinese interest rates or the Indian wedding season.

"Nevertheless, in very conservative portfolios, it can sit comfortably alongside an investor's bond funds as a hedge against high inflation, should it come back again. I tend to see gold, not so much as a hedge against falling equity markets, but as a hedge against human stupidity."

The references to gold or commodities should not be construed as an investment recommendation.

Notes to Editors:

About 7IM

It all began in 2002, with seven of us in a basement establishing Seven Investment Management (7IM) because we couldn't find anywhere we wanted to invest our families' money. Our assets under management now stand at around £12.9bn (more than doubling since 2013), and we have moved from 'basement' to 'Bishopsgate' in the City of London. There are now around 266 of us.

We manage money aiming to meet people's medium to long term return expectations. Fundamentally, we believe in active asset allocation in both active and passive investments (where we were one of the first to offer actively managed passive portfolios). We build global portfolios based on that allocation, and include alternative assets where appropriate to manage the risk reward trade off. Active currency management is also at the core of what we do.

7IM provides investment services to professional wealth managers, planners, advisers and private investors. These include: Discretionary investment management, a range of multi-asset portfolios, an investment and open architecture trading platform and a fantastic app, 7IMagine, which brings client portfolios to life.

Multigenerational investing

We do our best to pass on economies of scale, reducing fees so more investors within a family save with us. Grandparents, through to parents and their children can invest as individuals with one charging structure – whether they live under the same roof or not.

A story of continuous innovation.

In 2013, we launched 7IMagine, an app allowing investors and advisers to keep up to date with their portfolio. The brainchild of some clients – professional 'gamers' uninspired by their paper statements – 7IMagine was enriched in February 2016, with My Future. Again using gaming technology, My Future allows advisers and investors to capture details about family or individual finances, including any number of streams of income, properties, other assets and expenses, to help identify how sustainable their finances are and if / when their retirement income will run out.

Our funds

- Our **AAP fund range (Asset Allocated Passive)** is populated largely with passive structures to keep costs to a minimum. Asset allocation is actively managed to help exploit opportunities and reduce risk across the spectrum: **7IM AAP Adventurous, 7IM AAP Moderately Adventurous, 7IM AAP Balanced, 7IM AAP Moderately Cautious, 7IM Cautious and 7IM AAP Income**. Some of these risk profiles have funds domiciled in both Dublin (with UK reporting status) as well as the UK.
- Our **Multi-Manager fund range** invests in a range of active and passive vehicles. Costs still matter, but if we think an actively managed fund can outperform a passive alternative we have the freedom to choose it. Asset allocation is actively managed. Again, there are different funds for different profiles: **7IM Adventurous, 7IM Moderately Adventurous, 7IM Balanced and 7IM Moderately Cautious**. Again, some of these risk profiles have funds domiciled in both Dublin (with UK reporting status) as well as the UK.
- We also have a selection of funds designed to meet specific needs, such as the **7IM Personal Injury Fund**, the **7IM Real Return Fund** or the SRI focussed **7IM Sustainable Balance Fund**.
- We also have a range of 'smart passive' funds known as the equity value funds. The range includes: the **7IM UK Equity Value Fund**, the **7IM US Equity Value Fund**, the **7IM European (ex. UK) Equity Value Fund** or the **7IM Emerging Markets Equity Value Fund**. These are entirely systematically managed based solely on company fundamentals, the aim being to outperform the relevant passive market cap-weighted alternative by selecting

profitable, high-quality, cash-flow generating companies that trade at a discount to their intrinsic value.

Our Model Portfolios

The 7IM Model Portfolios are a range of risk rated portfolios and are available within our discretionary investment services and standalone on the 7IM platform and other platforms. The Models use the same investment process and asset allocation as our funds.

Our range of Model Portfolios are available across the risk profiles: **7IM Adventurous Model Portfolio, 7IM Moderately Adventurous Model Portfolio, 7IM Balanced Model Portfolio, 7IM Moderately Cautious Model Portfolio, 7IM Cautious Model Portfolio and 7IM Income Model Portfolio.**

The 7IM funds and Model Portfolios are available through the 7IM Discretionary, Managed Investment, Platform, and Self Invest services, as well as on other platforms.
