

AS AT 31 DECEMBER 2023

Investment objective

The model aims to provide income, while seeking to maintain capital over the long term.

Investment strategy

The Manager starts the investment process by identifying the best mix of asset classes to create a long-term strategic asset allocation (SAA) customised for each 7IM risk profile. The Manager will then look to make measured deviations from the SAA on a tactical basis with the aim of enhancing the return and/or reducing the risk for a given profile. Once this Tactical Asset Allocation (TAA) is established, a portfolio is then constructed with funds selected by the Manager to populate the TAA. This is implemented through a blend of funds that employ either a passive approach (which aims to closely track the returns of a comparable index) or an active management approach (which aims to generate additional return above a comparable index).

Portfolio performance

Key information

Inception date	05 December 2013
Performance comparator benchmark	IA Mixed Investment 20-60% Shares
Initial charge	0.00%
Domicile	United Kingdom
Annual portfolio charge	0.25%
Underlying OCF*	0.22%

Prior to 30 June 2021 the 7IM Blended Model Portfolios were known as the 7IM Passive Model Portfolios.

The value of investments may go up and down and you may get back less than you invested originally.

Models are constructed under the principles of prudent diversification. All assets are denominated in UK Sterling.

The investment or investment service may not be suitable for all recipients of this publication and any doubts regarding this should be addressed to your Financial Adviser.

*The ongoing charges figure (OCF) shown is correct as at the date of this factsheet but will vary in future dependent on the holdings within the Model.

**7IM's model portfolios are mapped against a selection of third party risk profiling tools to assist advisers as part of suitability assessments for clients. Such tools are however only one aspect of an adviser's suitability process and other such as the clients' investment term / horizon and knowledge and experience should also be considered. The methodology of third party risk profiling tools is not endorsed by 7IM and individual fund risk profiling scores may not correspond precisely to the risk indicators in the 7IM fund literature.
