

7IM Active Adventurous Plus Model Portfolio

As at 31 January 2021

INVESTMENT OBJECTIVE AND PROCESS

This model portfolio aims to provide capital growth by applying active asset allocation techniques to investments. There is a risk of wide fluctuations in capital values.

The model portfolios are based on the 7IM asset allocation. The Asset Allocation framework governs how 7IM combine different asset classes, regions and manager styles to optimise expected returns, but reduce risk.

The current economic and political environment is factored into the portfolio through the quarterly tactical asset allocation.

Portfolios are not automatically rebalanced; rather they are reviewed and adjusted as judged necessary four times each year following our tactical asset allocation process, other than in exceptional circumstances.

Our investment approach is a long term one which means we may not be suitable for those investors who wish to invest for less than 5 years but, we believe that our defined investment process with clear parameters for each of our risk profiles will go some way to reducing the risks associated with investing when used over a 5–10 year period of time. There can be no guarantees. The value of investments may go up and down and you may get back less than you invested originally.

Models are constructed under the principles of prudent diversification. All assets are denominated in UK Sterling.

7IM is responsible for updates of the models.

The investment or investment service may not be suitable for all recipients of this publication and any doubts regarding this should be addressed to your Financial Adviser.

The model portfolio is available for investment across the following account types – GIA, ISA, SIPP and Offshore Bond.

PORTFOLIO PERFORMANCE

Portfolio Performance to 31/01/2021

Last 6 Months	1 Year	2 Years	3 Years	4 Years	5 Years	Since Launch
16.36%	12.96%	-	-	-	-	16.86%

Discrete Performance

Q4 2019 – Q4 2020	Q4 2018 – Q4 2019	Q4 2017 – Q4 2018	Q4 2016 – Q4 2017	Q4 2015 – Q4 2016
11.52%	-	-	-	-

The composite performance is calculated by 7IM using Financial Express Analytics data. This information is believed to be reliable but has not been independently audited.

Past performance is not a guide to the future.
