

7IM PASSIVE ADVENTUROUS MODEL PORTFOLIO

AS AT 31 MAY 2021

Investment objective

The model aims to provide capital growth.

Investment strategy

The starting point for the Manager's investment process is identifying the best mix of asset classes to create a strategic asset allocation (SAA) customised for each 7IM risk profile. The SAA is then adapted to financial markets to enhance return and reduce volatility on a tactical basis using 7IM's tactical asset allocation process (TAA) making temporary and measured departures from the SAA. The fund's portfolio of assets is constructed predominantly with passive securities. By Asset Allocated Passive (AAP) we mean that we actively choose third party managers or securities for their own expertise in selecting particular assets, where their objective is to closely track a pre-determined index.

The Model Portfolio is available for investment across the following account types: GIA, ISA, SIPP and Offshore Bond.

Portfolio performance

Model availability

7IM model portfolios are available via the majority of the major wraps, platforms and life and pension wrappers.

Important information

The value of investments may go up and down and you may get back less than you invested originally.

Models are constructed under the principles of prudent diversification. All assets are denominated in UK Sterling.

The investment or investment service may not be suitable for all recipients of this publication and any doubts regarding this should be addressed to your Financial Adviser.

*The ongoing charges figure (OCF) shown is correct as at the date of this factsheet but will vary in future dependent on the holdings within the Model.

**7IM's model portfolios are mapped against a selection of third party risk profiling tools to assist advisers as part of suitability assessments for clients. Such tools are however only one aspect of an adviser's suitability process and other such as the clients' investment term / horizon and knowledge and experience should also be considered. The methodology of third party risk profiling tools is not endorsed by 7IM and individual fund risk profiling scores may not correspond precisely to the risk indicators in the 7IM fund literature.
