16 SEPTEMBER 2019

7IM LAUNCHES TAILORED DRAWDOWN SERVICE FOR ADVISERS

Seven Investment Management (7IM) has today announced the launch of a tailored drawdown feature within its 7IM SIPP to allow advisers more flexibility when managing the quantity and frequency of a client's drawdown payments.

The simple to set up service will be available to all members of the 7IM SIPP, and is designed to allow advisers to tailor drawdown requirements to an individual client's needs, as well as enable advisers to better manage clients' tax liabilities.

Within the feature, advisers and their clients will have the complete flexibility to take their retirement income how they want. This can be purely from tax free cash or partly from tax free cash and partly from taxable income.

Additional benefits of the drawdown feature include enabling advisers to continue to control the investment options within clients' 7IM SIPPs, setting drawdown levels to manage clients' income tax liabilities, and enabling residual funds to be passed to clients' nominated beneficiaries on death.

Verona Kenny, Managing Director of Intermediary at 7IM said:

"We are excited to be one of the first non-insurance providers to offer tailored drawdown within our SIPP. By our own omission we were slow to launch our own SIPP but are now striving to lead the market in terms of functionality and ease of use. We have some further exciting developments coming up in the near future focussed specifically on ease of use.

"In terms of retirement planning we understand the need for us to be a flexible product provider who creates innovative solutions adapted to the new world of pension freedoms. Tailored drawdown is an important part of being able to offer a flexible retirement offering for advisers and their clients."

Notes to Editors:

About 7IM

It all began in 2002, with seven of us in a basement establishing Seven Investment Management (7IM) because we couldn't find anywhere we wanted to invest our families' money. Our assets under management now stand at around £14.3bn, and we have moved from 'basement' to 'Bishopsgate' in the City of London.

We manage money aiming to meet people's medium to long term return expectations. Fundamentally, we believe in active asset allocation in both active and passive investments (where we were one of the first to offer actively managed passive portfolios). We build global portfolios based on that allocation, and include alternative assets where appropriate to manage the risk reward trade off. Active currency management is also at the core of what we do.

7IM provides investment services to professional wealth managers, planners, advisers and private investors. These include: discretionary investment management, a range of multi-asset portfolios, an investment and open architecture trading platform and a fantastic app, 7IMagine, which brings client portfolios to life.

Multigenerational investing

We do our best to pass on economies of scale, reducing fees so more investors within a family save with us. Grandparents, through to parents and their children can invest as individuals with one charging structure – whether they live under the same roof or not.

A story of continuous innovation.

In 2013, we launched 7IMagine, an app allowing investors and advisers to keep up to date with their portfolio. The brainchild of some clients – professional 'gamers' uninspired by their paper statements – 7IMagine was enriched in February 2016, with My Future. Again using gaming technology, My Future allows advisers and investors to capture details about family or individual finances, including any number of streams of income, properties, other assets and expenses, to help identify how sustainable their finances are and if / when their retirement income will run out.

Our funds

- Our **AAP fund range (Asset Allocated Passive)** is populated largely with passive structures to keep costs to a minimum. Asset allocation is actively managed to help exploit opportunities and reduce risk across the spectrum: **7IM AAP Adventurous, 7IM AAP Moderately Adventurous, 7IM AAP Balanced, 7IM AAP Moderately Cautious, 7IM Cautious and 7IM AAP Income**. Some of these risk profiles have funds domiciled in both Dublin (with UK reporting status) as well as the UK.
- Our **Multi-Manager fund range** invests in a range of active and passive vehicles. Costs still matter, but if we think an actively managed fund can outperform a passive alternative we have the freedom to choose it. Asset allocation is actively managed. There are different funds for different profiles: **7IM Adventurous, 7IM Moderately Adventurous, 7IM Balanced and 7IM Moderately Cautious**. Again, some of these risk profiles have funds domiciled in both Dublin (with UK reporting status) as well as the UK.
- We also have a selection of funds designed to meet specific needs, such as the **7IM Personal Injury Fund**, the **7IM Real Return Fund** or the SRI focussed **7IM Sustainable Balance Fund**.
- We also have a range of 'smart passive' funds known as the equity value funds. The range includes: the **7IM UK Equity Value Fund**, or the **7IM European (ex. UK) Equity Value Fund**. These are entirely systematically managed based solely on company fundamentals, the aim being to outperform the relevant passive market cap-weighted alternative by selecting profitable, high-quality, cash-flow generating companies that trade at a discount to their intrinsic value.

Our Model Portfolios

The 7IM Model Portfolios are a range of risk rated portfolios and are available within our discretionary investment services and standalone on the 7IM platform and other platforms. The Models use the same investment process and asset allocation as our funds.

Our range of Model Portfolios are available across the risk profiles: **7IM Adventurous Model Portfolio, 7IM Moderately Adventurous Model Portfolio, 7IM Balanced Model Portfolio, 7IM Moderately Cautious Model Portfolio, 7IM Cautious Model Portfolio and 7IM Income Model Portfolio.**

The 7IM funds and Model Portfolios are available through the 7IM Discretionary, Platform, and Self Invest services, as well as on other platforms.
